And What Have You

By BOB CRAIG

As we mentioned previously in this column, the West Texas Chamber of Commerce is undertaking a project that could have far reaching affect on Hamlin and all of West Texas. This is the "Small Town Task Force" that will attempt to come up with the answers to many of the problems facing towns in West Texas with less than 12,000 population.

The project appears to be well staffed and well organized and with the support of the community leaders of West Texas could go a long way in helping improve the future of this area and Hamlin.

There is one problem facing the smaller towns—those under 5,000 population—that if solved, could go further in helping Hamlin and similar cities than anything that I know of. This problem is how to come up with a tax supported Chamber of Commerce.

Because of Texas Law, cities must be over 5,000 in population to have home-rule and they must have home-rule before they can spend tax money on a Chamber of Commerce.

The towns with active C of C's are the ones that are growing and very few towns are able to support an active chamber with voluntary contributions. A good chamber with a full time manager just costs more than most towns are able to raise through contributions.

A good example of this problem is found in our county—the difference between Stamford and Hamlin. Stamford operates under the home-rule charter provision while Hamlin does not. Stamford just reorganized their chamber this past year and has a budget of over \$20,000.00. Of this amount, about \$17,000.00 comes out of the city budget and the balance comes from membership dues.

Hamlin, which does not operate under the home-rule charter, must support its Board of Community Development or chamber by dues alone. About \$6,000.00 or \$7,000.00 is the best that it has been able to raise and this is not enough to pay a full time manager much less operate for a year.

It would seem pretty obvious which town would have the advantage in an effort to attract new industry.

There are many problems facing the small towns and cities of West Texas and we hope that this Task Force can come up with some answers to at least part of them. But especially we would like to see an answer to this problem of how to finance a better chamber.

From all indications "King Cotton" will be fighting for its throne next week when the cotton producers vote on the "Cotton's Research and Promotion Program" by mail referendum.

This vote is important for two reasons. The first of course is the need for more and better research and promotion for cotton if it is to survive its struggle with synthetics. Cotton has taken a terrific beating in the market place of the world. Cotton acreage is the lowest since 1872 and down 30 per cent on the average for 1966—with carryover at an all-time high.

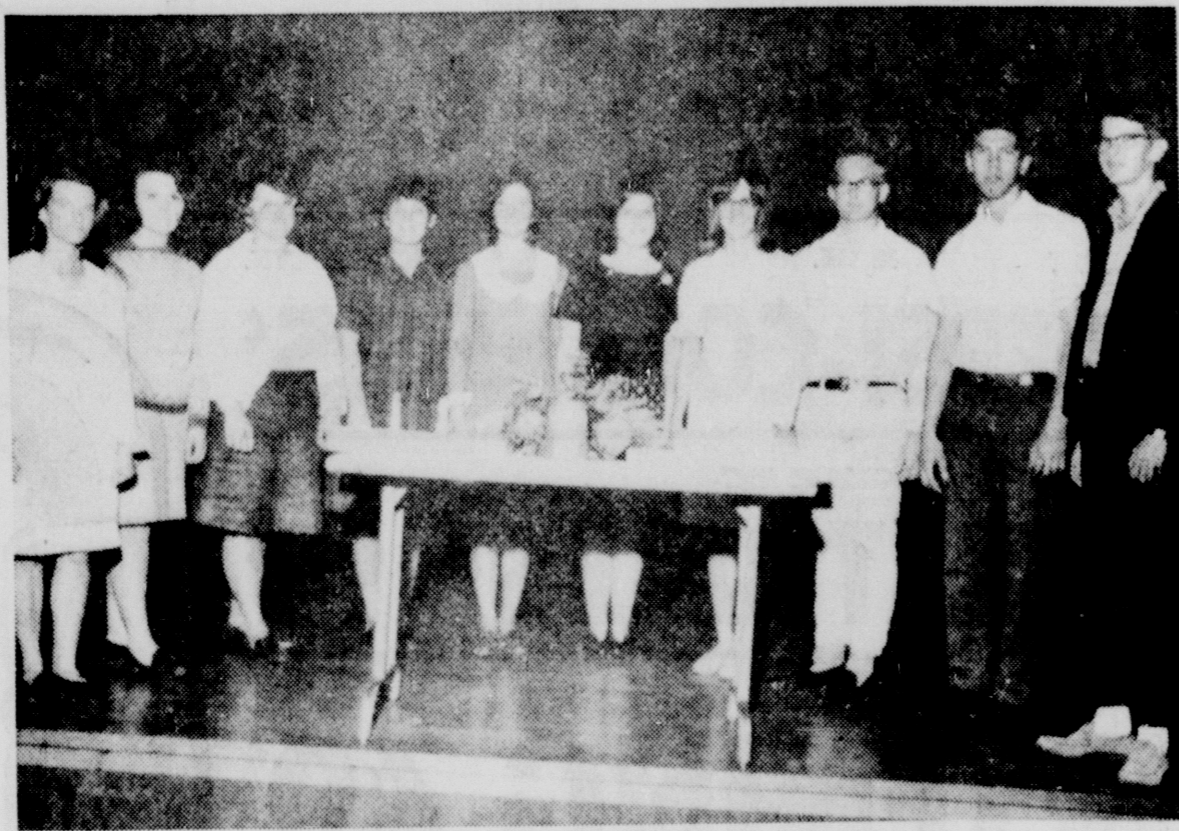

But the vote is also important because our farm leaders in congress, such as Rep. W. R. Poage, have warned that unless cotton producers show a willingness to invest in their own future it is going to be doubly hard to find enough support in Congress to continue the fight for cotton.

Poage, ranking member of House Agriculture Committee, said, "If farmers show by their vote that they are ready to give up on cotton, I think the Congress will be ready to give up too."

Poage pointed out that payments to protect cotton farmers' income, meet price competition, and reduce surplus are substantial, noting that for a typical farmer with 30-acre allotment and 35% diversion they amount to about \$72.50 per bale. "Some Northern Congressmen are asking is it worth this much to save Cotton," he warned.

"In my judgement, Congress will feel that it is very much worthwhile—if we can see genuine promise that there will be programs capable of putting cotton on its feet and making it self-sufficient within some reasonable period of time," he added.

For the sake of cotton and this area we only hope that the producers will vote for this "self-help" program.

The members are, left to right, Pam Holtz, Sue Roddy, Reba Jackson, Sharon Hawkins, Vicki Newland, Jayne Turner, Kathy Moore, James Knabel, Augustin Barron and Tommy Oliver. Dr. Billy P. Smith, interim pastor of First Baptist Church and a professor of Bible at Hardin-Simmons University, Abilene, was the speaker. —(Tim Jones Photo)

Farmers to Vote Dec. 5-9 to Decide Cotton Research and Promotion Act

During the week of December 5-9, Rolling Plains cotton farmers will have the opportunity to decide, in referendum, whether to put up a dollar a bale to finance a big expansion in research and promotion. It is squarely up to farmers to make the decision. "And whatever that decision may turn out to be, it should be based on the facts and on a full understanding of the stakes that are involved", said Charles Stenholm, executive vice president of the Rolling Plains Cotton Growers, Inc.

Some of the facts include (1) higher priced synthetics are taking over our market over 2 million bales in the last two years, (2) new synthetic fiber plants are scheduled with additional manufac-

turing capacity equal to another 3.5 million bales of cotton by 1967, (3) carryover is at an all-time high with acreage lowest since 1872, (4) if we want to keep growing cotton, we must sell more cotton, (5) if we are to sell more cotton, we must meet our competitors in the field of research and promotion.

These and many other facts are not being disputed. Opposition to the Cotton Research and Promotion Act which will be voted on next week concerns two main points. Number 1 is that it is a compulsory check-off program and Number 2 it will be controlled and run by the Secretary of Agriculture. These are not factually upheld but are interpretations of what is written and intended by the Act, as written by farmers and passed by Congress.

The RPCG did not write the Act so we can only interpret also. The RPCG has officially endorsed the Act by unanimous vote of the members present at the 1966 annual meeting. We feel that the Act has good as well as bad points but, overall, it offers a sound and practical method of uniting 500,000 cotton producers in the U. S. behind a necessary program for selling more cotton.

The past CPI, dollar a bale program, failed because of lack of a uniform collection system. The Act provides for

a uniform collection of funds with refunds to those desiring a refund; therefore, it is not compulsory.

All projects must be initiated and administered by producer organizations therefore the Secretary will not control the program.

The Secretary of Agriculture will referee or supervise the work of the Cotton Board to insure that the funds are spent as intended under the law which is not necessarily a bad part of the bill.

Cotton is in trouble. No one can deny this fact. For cotton to compete we, as farmers, must do a better job of promoting our product. To promote our cotton we must have money, put up by the farmers. The issue then is whether the Act that will be voted on next week or the purely voluntary CPI program that has thus far failed should be the method of providing the funds and machinery for carrying out a sound program of research and promotion for cotton.

The RPCG urges every farmer to vote. Vote your own conviction but don't fail to VOTE!!!

PIPER PATER—

Ten New Members Inducted Into National Honor Society

By Helen Moore
Tommy Oliver
Beth Craig

On Tuesday, Nov. 22, the National Honor Society held induction ceremonies for ten new members. This is the highest honor a student can achieve while in high school. Our sincere congratulations to: Pam Holtz, Vicki Newland, Sue Roddy, seniors; and Augustin Barron, Sharon Hawkins, James Knabel, Reba Jackson, Tommy Oliver, Kathy Moore, and Jayne Turner, juniors.

After hearing the National Honor Society's four objectives — Scholarship, Leadership, Character, and Service — described by Revonna Robertson, Margaret Johnson, Gene-

va Ward, and June Hill; Ambition, not an objective but an important factor in the development of the four objectives, discussed by Randy Smith; and the NHS Emblem described by Robert Moore; the new members were presented with pins and membership cards by Helen Moore, NHS President.

The speaker for the ceremony was Dr. Billy P. Smith, the interim minister at the First Baptist Church at Hamlin and a Bible teacher at Hardin-Simmons University. One of the main points of his talk was that what you are in school and what you do will affect your future.

After the ceremony a reception honoring the new members and their parents was held in the Homemaking Department.

—hhs—

Thankfulness was the theme of the Spanish Club meeting last Monday night. At the meeting, several of the members said in Spanish the things they were thankful for, and some of those things included: families, churches, friends, school, country, and many other things.

Thanksgiving has come and gone, but let us be careful to count our blessings and be thankful for what we have each day of the year.

—hhs—

A stirring devotional was presented on Wednesday, the 23, by the Future Homemakers of America. Preceding the devotional, Sue Roddy, FHA President, announced that Donnie Jones had been elected FHA Beau for 1966-67. Congratulations, Donnie!

The cheerleaders are preparing once again for the upcoming basketball season. The girls elected last Monday to lead the cheering section are: Geneva Ward, Helen Moore, June Hill, Kathy Moore, and Cheryl Walton. We are anticipating a great season and hope that everyone will join us in backing our teams.

Gary Cauble, a McMurry College Band member, will be on a four day tour starting Dec. 4, traveling with the band to eight West Texas towns. Cauble, a sophomore, is the son of Mr. and J. C. Cauble.

GOING UP...

A building is being erected. It is made of strong materials, steel and concrete. The foundation is firm and deep. The edifice is built to endure.

We need to build our homes to endure. They need a strong foundation. They need to be built on the rock of Christ. Psalm 127:1 reads, *Except the Lord build the house, they labour in vain that build it.* Attend church regularly that your house may be instructed in the ways of the Lord.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Telephone Company Announces Long Distance Rate Reduction

A state-wide reduction in telephone rates totaling \$6 million annually was announced today by Mike McCoy, manager of Southwestern Bell Telephone.

This is the second such voluntary rate decrease made by the company during the past two years.

Largest item in the forthcoming reduction is a further lowering of intrastate (calls within Texas) Long Distance rates, effective January 1, 1967.

With the reduction, most station-to-station calls over 55 miles in distance in Texas will have lower rates, varying from 5 to 14 cents less for three minutes depending on distance. Reductions are even greater for calls over three minutes.

Along with these reductions, all intrastate station-to-station calls which are made after 8 p. m. and all-day Sunday will get the lowest night rate. At present only station-to-station calls which are prepaid

(charged to the number placing the call) and credit card calls are charged at this low rate.

In addition to the lower Long Distance rates, there will be reductions of some miscellaneous telephone charges, effective December 1 this year.

Stewart Family Holds Reunion

The six children of the late W. D. Stewart had a reunion in the home of W. J. Stewart Sunday, the first time the group had been together in over three years. Attending from out of town were: Mr. and Mrs. Jerry Jones and Cindy, Mrs. Elmer Jones, Jake Stewart, all of Denton; Messers. and Mmes. Billy C. Jones and family, Charles Taylor, Dick Welch and family, C. L. Lively, all of Lubbock; Mr. and Mrs. Ray Stewart and Kim of Seymour, Mr. and Mrs. Bill McCarty and girls of Fort Worth.

Also Mr. and Mrs. Ollie Stewart and Mr. and Mrs. James Stewart and family and a host of other relatives, all from Hamlin.

Southwestern Bell announces \$6 million rate reduction for Texas Telephone customers

Second Voluntary Reduction For Texans in Two Years

At a time when prices for most goods and services are continuing their upward spiral, Southwestern Bell has announced a voluntary reduction in rates that will result in annual savings of \$6 million for Texas telephone users.

Included in the reduction are both Long Distance rates (effective January 1, 1967) and a series of miscellaneous telephone charges, (effective December 1, 1966).

Lower Rates on Long Distance Calls Between Cities in Texas

Reductions in intrastate (calls within Texas) Long Distance rates become effective January 1, 1967.

With the reduction, most station-to-station calls over 56 miles in distance will have lower rates, varying from 5 to 15 cents for three minutes, depending on the distance. Reductions are even greater for calls over three minutes.

In addition, all intrastate station-to-station calls which are made after 8 p.m. and all-day Sunday will get the lowest night rate—a maximum charge of 80 cents, plus tax, for three minutes. At present only station-to-station calls which are prepaid (charged to the number placing the call) and credit card calls get this low rate.

This is the 10th reduction in Long Distance rates for Texas telephone users since the end of World War II.

One-Time Color Charge, Other Rates Reduced on December 1

Texans will also enjoy savings on other telephone services, effective December 1, 1966.

These include the one-time charge for telephones in color (from \$7.50 to \$5). This is also the second reduction in the color charge in the past two years.

The original color charge was reduced from \$10 to \$7.50 on April 1, 1965.

And a new Residence Service Charge will benefit most residence customers who will be arranging for new service and additional service requiring installation. At present, there is a Service Connection Charge on each item of equipment installed. The new flat-rate, one-time Residence Service Charge will enable residence customers to have two or more telephones installed for the price of one.

There will also be a reduction in the monthly rate for amplifier telephones (presently ranging from \$1.25 to \$2). The new charge will be \$1. Amplifier telephones are primarily used by persons with hearing impediments and at noisy locations.

Customer Cooperation Helps Reduce Long Distance Rates

Technological developments continue to play an important part in keeping the cost of telephone service at a reasonable level. But much of the credit for making possible the reductions in Long Distance rates goes to Texas telephone users.

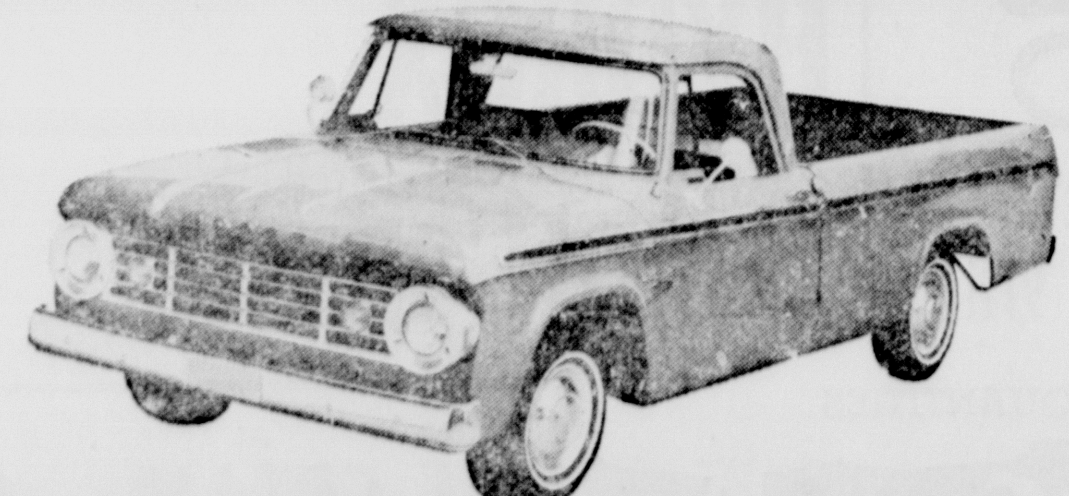

Without the cooperation of our customers in placing their calls by number, using Area Codes, and the taking advantage of Direct Distance Dialing where it is available, it would not have been possible to achieve the operating economies that have made possible these reductions.

We know of no better way, in passing these savings directly back to you, to say "thank you."

Local Postmaster Warns of Only Short Time Left for Yule Mailing

Postmaster Perry Sparks reminded Hamlin residents today that there are only 23 mailing days before Christmas.

"While that may seem like a long time to most people, it is frighteningly short to those of us in the Postal Service," he said. "Postmaster General Lawrence F. O'Brien has predicted that well over eight billion pieces of mail must be delivered between now and Christmas Eve, a new record."

"We are asking everyone to start thinking about Christmas shopping and mailing now. If all the holiday mail were to hit the postal system at one time, it is obvious that we'd have difficulty delivering every piece on time."

Mailing early and spreading the mail flow out along the entire pre-Christmas season is the key to better mail service at this time of the year.

Last year the public cooper-

ation was "tremendous," according to Mr. Sparks. Virtually every piece of holiday mail was delivered before Christmas Day. This year with increased volume because of the continuing strength of the economy we are hoping to see that fine cooperative spirit again.

Postmaster Sparks offered mailing tip — Use ZIP Codes on all mail. "If there are some ZIP Codes that you still need for your mailing list come to the Post Office and look them up in our ZIP Code directory or give us a call."

Stepfather Dies

VOTE YES ON COTTON RESEARCH AND PROMOTION DEC. 5-9

Because:

- Higher-priced synthetics are taking our markets — over 2 million bales in the last 2 years.
- New synthetic fiber plants are scheduled; additional manufacturing capacity equal to another 3.5 million bales of cotton by end of 1967.
- Carryover is at all-time high; acreage lowest since 1872.
- 1966 acreage cut averaged 30%; further cuts will come unless carryover is reduced.
- Research odds (5 to 1) and promotion odds (16 to 1) must be reduced if cotton is to survive.
- Farmers originated research and promotion proposal; farmers will run it.
- Plan is voluntary; any farmer not wishing to participate can get a refund.
- 42 cotton producer organizations have endorsed this approach —officially.
- All projects must be initiated and administered by producer trustees elected by cotton producer organizations.
- If we want to keep on growing cotton, we must sell more cotton.
- Most farmers put nearly \$100 or more into growing, harvesting, and ginning a bale; can you afford not to spend \$1 to sell a bale?

FAIRVIEW NEWS...

After weeks of almost summer again, cooler weather has returned. A trace of rain fell Saturday, but about all it did was wash the dust off the little wheat, so it could breathe. The sun is out bright again this Monday morning, which means that the farmers can resume their cotton harvest. There is still a lot of cotton left in the area, gins are still running seven days a week and some of them twenty-four hours a day. A ginner's life is certainly a hard grind, in a fall like this, when so much cotton is made and all of it is gathered at once.

Mr. and Mrs. Woodrow Goodwin and Mr. and Mrs. Elmer Joiner went to Abilene, Sunday afternoon, to visit with Mrs. R. M. Babb, in the Hendrick Hospital. Mrs. Babb was painfully injured Saturday afternoon, just north of Abilene, when the car in which she and her husband were riding blew a tire and went into a spin on the rain slick road. Mrs. Babb was thrown out of the car, when the right hand door came open, and rolled into the

ditch. In the car's wild spin she was struck by the front bumper, than the car ran over her, but fortunately she was in the ditch, which held the car up above her enough to save her life. She received a broken collar bone, a fractured hand, and it was feared a broken ankle, or some broken bones in her ankle, besides a cut on the head requiring some stitches, and her whole body a mass of bruises. It was hoped that she had not received any serious internal injuries. She was conscious Sunday afternoon and her usual jolly self, although she must have been suffering quite a bit. Rev. Babb escaped with only an injury to one of his arms, which he must have received in trying to gain control of the car again, the car was not overturned nor damaged except one door will not close. It was indeed a very miraculous escape for them.

Mrs. Babb writes the Sylvester news, so unless someone is kind enough to substitute for her, there won't be any Sylvester news for some

time. It seems that we news gatherers have been having hard luck this fall, lets hope this is the end of it all.

The Bobby Westmoreland that was buried Friday was the father of the cute red haired little Mark Westmoreland, that has come out to our church so much, with Melinda Wright before the Wrights moved to Abilene. Our sincere sympathy goes to his entire family.

Mr. and Mrs. Flavil Holmes attended funeral services, Saturday morning, for Mrs. Buntin, who died in the Holiday Lodge. Mrs. Buntin was the mother of Mrs. Larry Holmes, of Anson, and had been ill for a long time, having been bedfast for five years.

There was a lot of Thanksgiving visiting, with lots of turkey being cooked, some are still eating on them.

Mr. and Mrs. M. S. Johnson had four of their five sons, home for Thanksgiving, the son, Dennis, of California, being unable to come. Mr. and Mrs. Winslow Gray also spent Thanksgiving with them.

Mr. and Mrs. E. A. Henry went to Midland to spend Thursday and Friday with their son, Mr. and Mrs. Jimmy Henry, Judy and Cathy. Also present for Thursday and Thursday night, were Mr. and Mrs. Clois Henry and children, of San Angelo.

Mrs. Joe Ford reported that they were visited by two of their children, Mr. and Mrs. Eudell Ford, Lamesa, Mr. and Mrs. Willard Herrington and boys, Abilene.

Guests of the Flavil Holmes were their children, Mr. and Mrs. Jimmy Holmes, Melody, of Big Spring, Mr. and Mrs. Jack Wright, Melinda, Keanan and Randy, of Abilene. Also present were Mrs. Alma Holmes, Mr. Holmes' mother, and Mrs. Earl Herbst.

The Waincott family gathered at the family home for Thanksgiving, with their sister, Mrs. Ethel Allan. All of the family was present but Mr. and Mrs. Isiah Holmes, of Abilene. Mr. Holmes being ill. Friday George Waincott went to Abilene to visit with them, returning home Saturday. Mrs. Mel Jones also spent Thanksgiving day with the Waincotts.

Mr. and Mrs. Woodrow Goodwin and Linda had Paul Frazier of Dyess A. F. B. as a guest, to eat some good home cooking.

We, the Elmer Joiners, had dinner with the daughter, Mr. and Mrs. Runt McCoy and Larry. Although the men were working it just made them that much hungrier, making the old turkey and trimmings taste better. The day was also Runt's birthday, so he had to eat double.

Tuesday night visitors of the Flavil Holmes were, Mrs. Kate Jennings and son, Sam Jennings, of Odessa, and Mrs. Emma Dixon, of Hamlin. Mrs. Jennings and Mrs. Dixon are daughters of the late Mr. and Mrs. Herbst, old time settlers in our community.

Mrs. Woodrow Goodwin and Linda, visited with the M. E. Randolphs, in Abilene last Friday afternoon.

Visitors in Sunday School, Sunday morning, were Jimmy Holmes and Melody, They and Mrs. Holmes spent the holidays with his parents, Mr. and Mrs. Flavil Holmes.

Mrs. George Waincott spent Friday night with Mrs. Mel Jones, while her husband was visiting on the Plains.

Mr. and Mrs. Marvin Johnson had to return home after Thanksgiving, but the little boys took advantage of the holidays to visit with Grandpa and Grandma Gray. Other weekend visitors were Dorothy Gray, also of Amarillo, and a friend, did not learn his name.

There was a note of sadness to our business meeting of our church Sunday. We all realize that the rural churches are just about a thing of the past, the people just are not there. We did not decide anything definite, only that we will have services through December, then if a miracle doesn't happen we can't say what the outcome will have to be. Most small churches go down because of lack of funds to operate on, but the Lord has been good to us and we have the money to go on, but money does not a church make, you have to have some people.

Keeping Food Cool — For a makeshift camp refrigerator, try digging a hole about a foot and a half deep in a shady area. Place your perishable camp goods in the hole and cover with leafy branches. Food like milk, eggs and butter will keep for several days.

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

As we mentioned previously in this column, the West Texas Chamber of Commerce is undertaking a project that could have far reaching affect on Hamlin and all of West Texas. This is the "Small Town Task Force" that will attempt to come up with the answers to many of the problems facing towns in West Texas with less than 12,000 population.

The project appears to be well staffed and well organized and with the support of the community leaders of West Texas could go a long way in helping improve the future of this area and Hamlin.

There is one problem facing the smaller towns—those under 5,000 population—that if solved, could go further in helping Hamlin and similar cities than anything that I know of. This problem is how to come up with a tax supported Chamber of Commerce.

Because of Texas Law, cities must be over 5,000 in population to have home-rule and they must have home-rule before they can spend tax money on a Chamber of Commerce.

The towns with active C of C's are the ones that are growing and very few towns are able to support an active chamber with voluntary contributions. A good chamber with a full time manager just costs more than most towns are able to raise through contributions.

A good example of this problem is found in our county—the difference between Stamford and Hamlin. Stamford operates under the home-rule charter provision while Hamlin does not. Stamford just reorganized their chamber this past year and has a budget of over \$20,000.00. Of this amount, about \$17,000.00 comes out of the city budget and the balance comes from membership dues.

Hamlin, which does not operate under the home-rule charter, must support its Board of Community Development or chamber by dues alone. About \$6,000.00 or \$7,000.00 is the best that it has been able to raise and this is not enough to pay a full time manager much less operate for a year.

It would seem pretty obvious which town would have the advantage in an effort to attract new industry.

There are many problems facing the small towns and cities of West Texas and we hope that this Task Force can come up with some answers to at least part of them. But especially we would like to see an answer to this problem of how to finance a better chamber.

From all indications "King Cotton" will be fighting for its throne next week when the cotton producers vote on the "Cotton's Research and Promotion Program" by mail referendum.

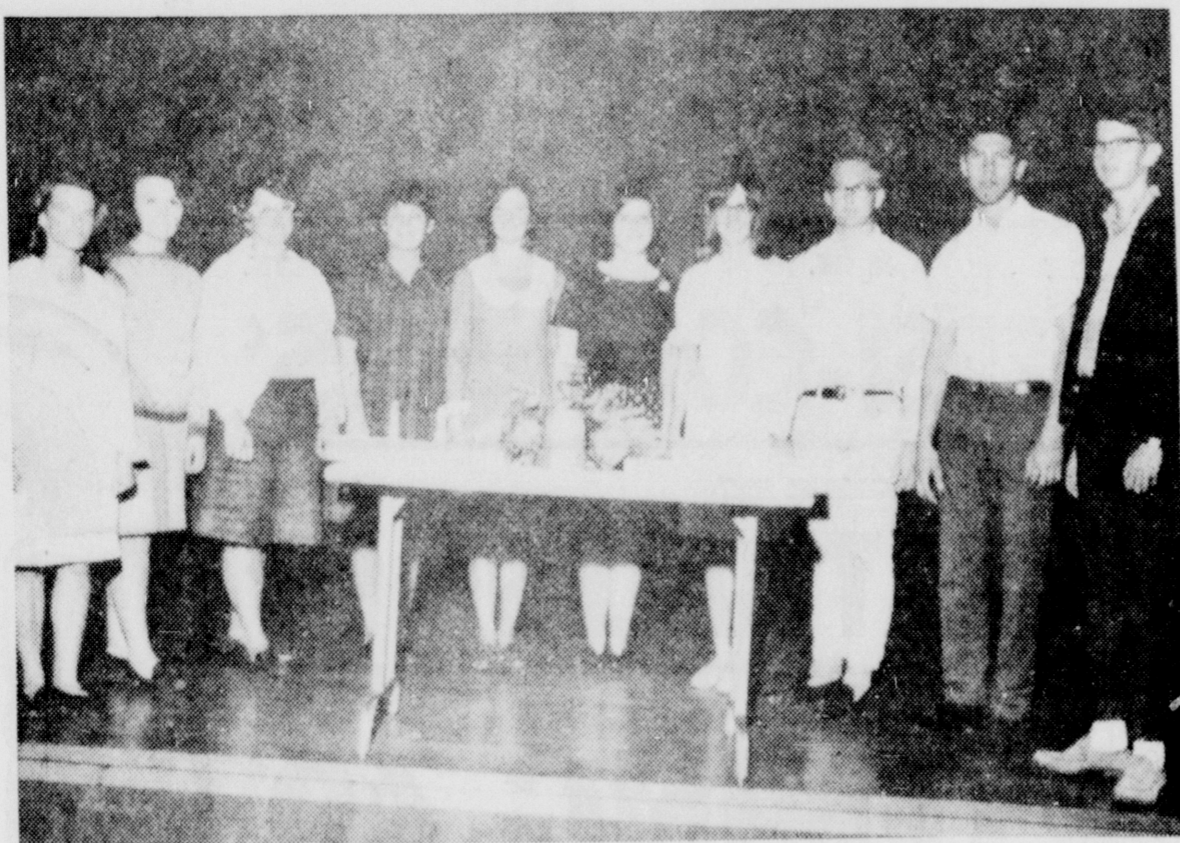

This vote is important for two reasons. The first of course is the need for more and better research and promotion for cotton if it is to survive its struggle with synthetics. Cotton has taken a terrific beating in the market place of the world. Cotton acreage is the lowest since 1872 and down 30 per cent on the average for 1966—with carryover at an all-time high.

But the vote is also important because our farm leaders in congress, such as Rep. W. R. Poage, have warned that unless cotton producers show a willingness to invest in their own future it is going to be doubly hard to find enough support in Congress to continue the fight for cotton. Poage, ranking member of House Agriculture Committee, said, "If farmers show by their vote that they are ready to give up on cotton, I think the Congress will be ready to give up too."

Poage pointed out that payments to protect cotton farmers' income, meet price competition, and reduce surplus are substantial, noting that for a typical farmer with 30-acre allotment and 35% diversion they amount to about \$72.50 per bale. "Some Northern Congressmen are asking is it worth this much to save cotton," he warned.

"In my judgement, Congress will feel that it is very much worthwhile—if we can see genuine promise that there will be programs capable of putting cotton on its feet and making it self-sufficient within some reasonable period of time," he added.

For the sake of cotton and this area we only hope that the producers will vote for this "self-help" program.

NEW NHS MEMBERS—Ten new members were inducted into the National Honor Society in ceremonies held Tuesday. The members are, left to right, Pam Holtz, Sue Roddy, Reba Jackson, Sharon Hawkins, Vicki Newland, Jayne Turner,

Kathy Moore, James Knabel, Augustin Barron and Tommy Oliver. Dr. Billy P. Smith, interim pastor of First Baptist Church and a professor of Bible at Hardin-Simmons University, Abilene, was the speaker. —(Tim Jones Photo)

Farmers to Vote Dec. 5-9 to Decide Cotton Research and Promotion Act

During the week of December 5-9, Rolling Plains cotton farmers will have the opportunity to decide, in referendum, whether to put up a dollar a bale to finance a big expansion in research and promotion. It is squarely up to farmers to make the decision. "And what-ever that decision may turn out to be, it should be based on the facts and on a full understanding of the stakes that are involved," said Charles Stenholm, executive vice president of the Rolling Plains Cotton Growers, Inc.

Some of the facts include (1) higher priced synthetics are taking over our market—over 2 million bales in the last two years, (2) new synthetic fiber plants are scheduled with additional manufac-

turing capacity equal to another 3.5 million bales of cotton by 1967, (3) carryover is at an all-time high with acreage lowest since 1872, (4) if we want to keep growing cotton, we must sell more cotton, (5) if we are to sell more cotton, we must meet our competitors in the field of research and promotion.

These and many other facts are not being disputed. Opposition to the Cotton Research and Promotion Act which will be voted on next week concerns two main points. Number 1 is that it is a compulsory check-off program and Number 2 it will be controlled and run by the Secretary of Agriculture. These are not factually upheld but are interpretations of what is written and intended by the Act, as written by farmers and passed by Congress.

The RPCG did not write the Act so we can only interpret also. The RPCG has officially endorsed the Act by unanimous vote of the members present at the 1966 annual meeting. We feel that the Act has good as well as bad points but, overall, it offers a sound and practical method of uniting 500,000 cotton producers in the U. S. behind a necessary program for selling more cotton.

The past CPI, dollar a bale program, failed because of lack of a uniform collection system. The Act provides for

a uniform collection of funds with refunds to those desiring a refund; therefore, it is not compulsory.

All projects must be initiated and administered by producer organizations therefore the Secretary will not control the program.

The Secretary of Agriculture will referee or supervise the work of the Cotton Board to insure that the funds are spent as intended under the law which is not necessarily a bad part of the bill.

Cotton is in trouble. No one can deny this fact. For cotton to compete we, as farmers, must do a better job of promoting our product. To promote our cotton we must have money, put up by the farmers. The issue then is whether the Act that will be voted on next week or the purely voluntary CPI program that has thus far failed should be the method of providing the funds and machinery for carrying out a sound program of research and promotion for cotton.

The RPCG urges every farmer to vote. Vote your own conviction but don't fail to VOTE!!!

Ten New Members Inducted Into National Honor Society

By Helen Moore
Tommy Oliver
Beth Craig

On Tuesday, Nov. 22, the National Honor Society held induction ceremonies for ten new members. This is the highest honor a student can achieve while in high school. Our sincere congratulations to: Pam Holtz, Vicki Newland, Sue Roddy, seniors; and Augustin Barron, Sharon Hawkins, James Knabel, Reba Jackson, Tommy Oliver, Kathy Moore, and Jayne Turner, juniors.

After hearing the National Honor Society's four objectives — Scholarship, Leadership, Character, and Service — described by Revonna Robertson, Margaret Johnson, Gene-

va Ward, and June Hill; Ambition, not an objective but an important factor in the development of the four objectives, discussed by Randy Smith; and the NHS Emblem described by Robert Moore; the new members were presented with pins and membership cards by Helen Moore, NHS President.

The speaker for the ceremony was Dr. Billy P. Smith, the interim minister at the First Baptist Church at Hamlin and a Bible teacher at Hardin-Simmons University. One of the main points of his talk was that what you are in school and what you do will affect your future.

After the ceremony a reception honoring the new members and their parents was held in the Homemaking Department.

—hhs—

Thankfulness was the theme of the Spanish Club meeting last Monday night. At the meeting, several of the members said in Spanish the things they were thankful for, and some of those things included: families, churches, friends, school, country, and many other things.

Thanksgiving has come and gone, but let us be careful to count our blessings and be thankful for what we have each day of the year.

—hhs—

A stirring devotional was presented on Wednesday, the 23, by the Future Homemakers of America. Preceding the devotional, Sue Roddy, FHA President, announced that Donnie Jones had been elected FHA Beau for 1966-67. Congratulations, Donnie!

—hhs—

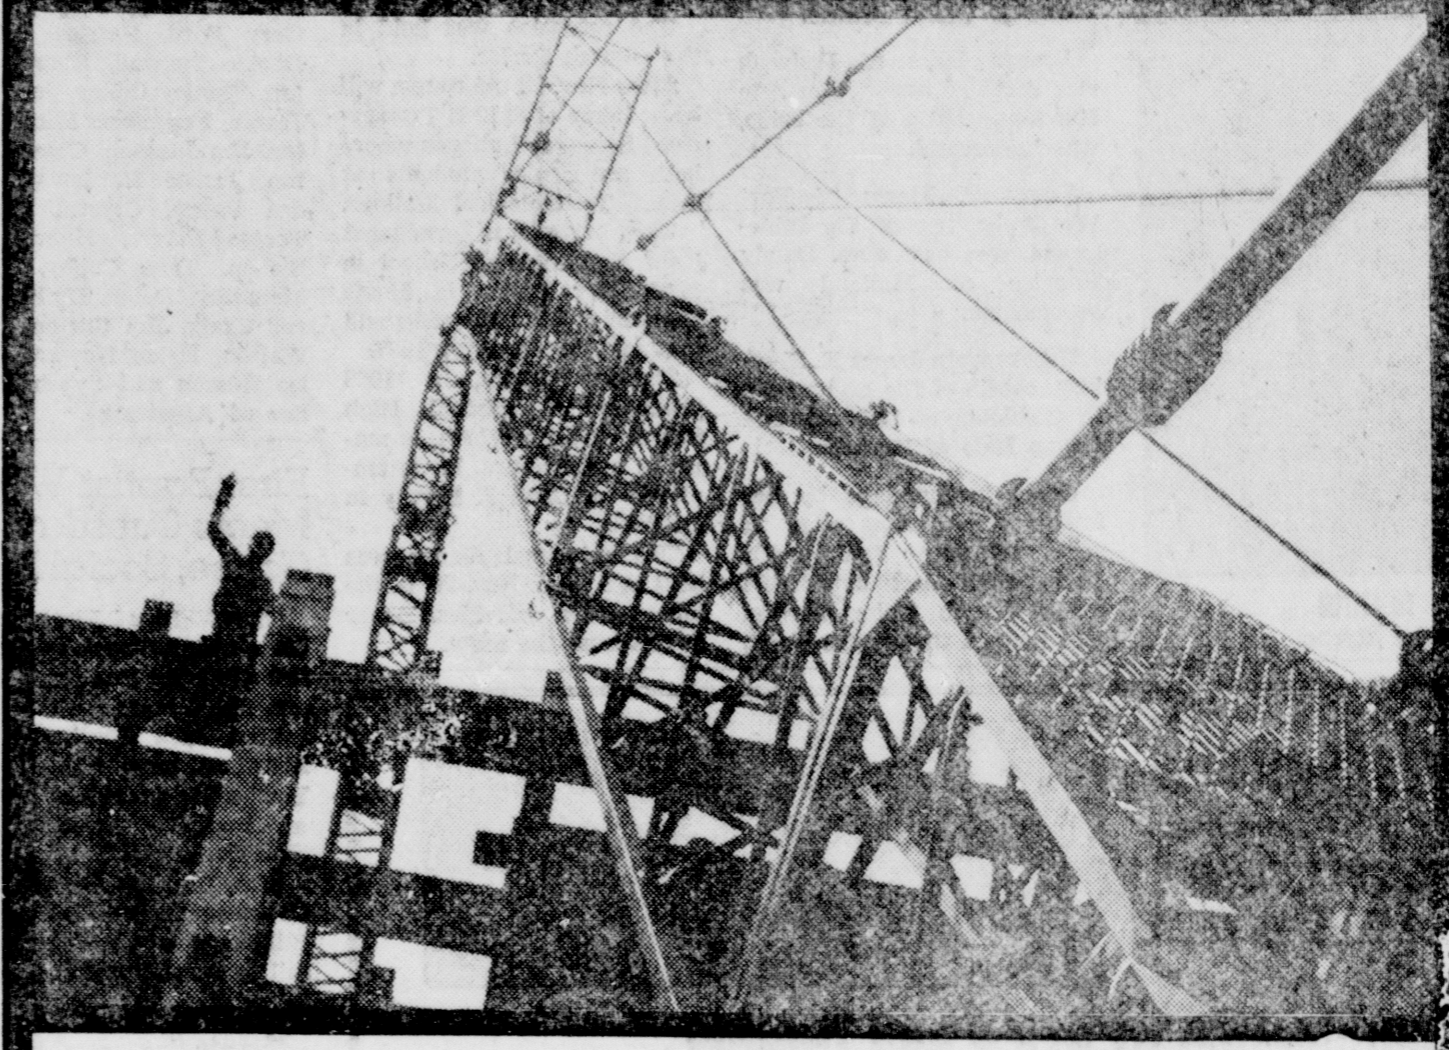

The cheerleaders are preparing once again for the upcoming basketball season. The girls elected last Monday to lead the cheering section are: Geneva Ward, Helen Moore, June Hill, Kathy Moore, and Cheryl Walton. We are anticipating a great season and hope that everyone will join us in backing our teams.

Gary Cauble, a McMurtry College Band member, will be on a four day tour starting Dec. 4, traveling with the band to eight West Texas towns. Cauble, a sophomore, is the son of Mr. and J. C. Cauble.

GOING UP...

A building is being erected. It is made of strong materials, steel and concrete. The foundation is firm and deep. The edifice is built to endure.

We need to build our homes to endure. They need a strong foundation. They need to be built on the rock of Christ. Psalm 127:1 reads, *Except the Lord build the house, they labour in vain that build it.* Attend church regularly that your house may be instructed in the ways of the Lord.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Telephone Company Announces Long Distance Rate Reduction

A state-wide reduction in telephone rates totaling \$6 million annually was announced today by Mike McCoy, manager of Southwestern Bell Telephone.

This is the second such voluntary rate decrease made by the company during the past two years.

Largest item in the forthcoming reduction is a further lowering of intrastate (calls within Texas) Long Distance rates, effective January 1, 1967.

With the reduction, most station-to-station calls over 56 miles in distance in Texas will have lower rates, varying from 5 to 14 cents less for three minutes depending on distance. Reductions are even greater for calls over three minutes.

Along with these reductions, all intrastate station-to-station calls which are made after 8 p. m. and all-day Sunday will get the lowest night rate. At present only station-to-station calls which are prepaid

(charged to the number placing the call) and credit card calls are charged at this low rate.

In addition to the lower Long Distance rates, there will be reductions of some miscellaneous telephone charges, effective December 1 this year.

Stewart Family Holds Reunion

The six children of the late W. D. Stewart had a reunion in the home of W. J. Stewart Sunday, the first time the group had been together in over three years. Attending from out of town were: Mr. and Mrs. Jerry Jones and Cindy, Mrs. Elmer Jones, Jake Stewart, all of Denton; Messers. and Mmes. Billy C. Jones and family, Charles Taylor, Dick Welch and family, C. L. Lively, all of Lubbock; Mr. and Mrs. Ray Stewart and Kim of Seymour, Mr. and Mrs. Bill McCarty and girls of Fort Worth.

Also Mr. and Mrs. Ollie Stewart and Mr. and Mrs. James Stewart and family and a host of other relatives, all from Hamlin.

Southwestern Bell announces \$6 million rate reduction for Texas Telephone customers

Second Voluntary Reduction For Texans in Two Years

At a time when prices for most goods and services are continuing their upward spiral, Southwestern Bell has announced a voluntary reduction in rates that will result in annual savings of \$6 million for Texas telephone users.

Included in the reduction are both Long Distance rates (effective January 1, 1967) and a series of miscellaneous telephone charges, (effective December 1, 1966).

Lower Rates on Long Distance Calls Between Cities in Texas

Reductions in intrastate (calls within Texas) Long Distance rates become effective January 1, 1967.

With the reduction, most station-to-station calls over 56 miles in distance will have lower rates, varying from 5 to 15 cents for three minutes, depending on the distance. Reductions are even greater for calls over three minutes.

In addition, all intrastate station-to-station calls which are made after 8 p.m. and all-day Sunday will get the lowest night rate—a maximum charge of 80 cents, plus tax, for three minutes. At present only station-to-station calls which are prepaid (charged to the number placing the call) and credit card calls get this low rate.

This is the 10th reduction in Long Distance rates for Texas telephone users since the end of World War II.

One-Time Color Charge, Other Rates Reduced on December 1

Texans will also enjoy savings on other telephone services, effective December 1, 1966.

These include the one-time charge for telephones in color (from \$7.50 to \$5). This is also the second reduction in the color charge in the past two years.

The original color charge was reduced from \$10 to \$7.50 on April 1, 1965.

And a new Residence Service Charge will benefit most residence customers who will be arranging for new service and additional service requiring installation. At present, there is a Service Connection Charge on each item of equipment installed. The new flat-rate, one-time Residence Service Charge will enable residence customers to have two or more telephones installed for the price of one.

There will also be a reduction in the monthly rate for amplifier telephones (presently ranging from \$1.25 to \$2). The new charge will be \$1. Amplifier telephones are primarily used by persons with hearing impediments and at noisy locations.

Customer Cooperation Helps Reduce Long Distance Rates

Technological developments continue to play an important part in keeping the cost of telephone service at a reasonable level. But much of the credit for making possible the reductions in Long Distance rates goes to Texas telephone users.

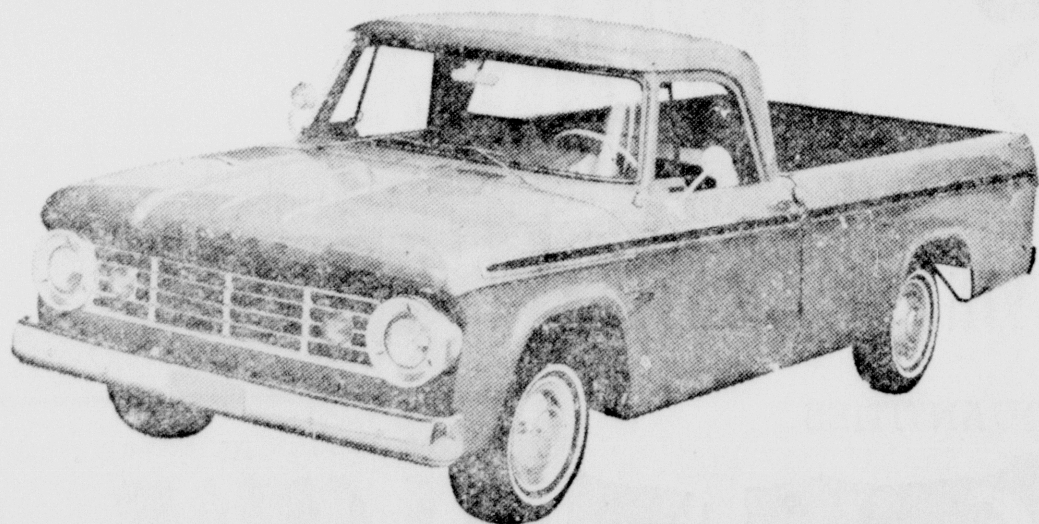

Without the cooperation of our customers in placing their calls by number, using Area Codes, and the taking advantage of Direct Distance Dialing where it is available, it would not have been possible to achieve the operating economies that have made possible these reductions.

We know of no better way, in passing these savings directly back to you, to say "thank you."

Local Postmaster Warns of Only Short Time Left for Yule Mailing

Postmaster Perry Sparks reminded Hamlin residents today that there are only 23 mailing days before Christmas.

"While that may seem like a long time to most people, it is frighteningly short to those of us in the Postal Service," he said. "Postmaster General Lawrence F. O'Brien has predicted that well over eight billion pieces of mail must be delivered between now and Christmas Eve, a new record."

"We are asking everyone to start thinking about Christmas shopping and mailing now. If all the holiday mail were to hit the postal system at one time, it is obvious that we'd have difficulty delivering every piece on time."

Mailing early and spreading the mail flow out along the entire pre-Christmas season is the key to better mail service at this time of the year.

Last year the public cooper-

ation was "tremendous," according to Mr. Sparks. Virtually every piece of holiday mail was delivered before Christmas Day. This year with increased volume because of the continuing strength of the economy we are hoping to see that fine cooperative spirit again.

Postmaster Sparks offered mailing tip — Use ZIP Codes on all mail. "If there are some ZIP Codes that you still need for your mailing list come to the Post Office and look them up in our ZIP Code directory or give us a call."

VOTE YES ON COTTON RESEARCH AND PROMOTION DEC. 5-9

Because:

- Higher-priced synthetics are taking our markets — over 2 million bales in the last 2 years.
- New synthetic fiber plants are scheduled; additional manufacturing capacity equal to another 3.5 million bales of cotton by end of 1967.
- Carryover is at all-time high; acreage lowest since 1872.
- 1966 acreage cut averaged 30%; further cuts will come unless carryover is reduced.
- Research odds (5 to 1) and promotion odds (16 to 1) must be reduced if cotton is to survive.
- Farmers originated research and promotion proposal; farmers will run it.
- Plan is voluntary; any farmer not wishing to participate can get a refund.
- 42 cotton producer organizations have endorsed this approach —officially.
- All projects must be initiated and administered by producer trustees elected by cotton producer organizations.
- If we want to keep on growing cotton, we must sell more cotton.
- Most farmers put nearly \$100 or more into growing, harvesting, and ginning a bale; can you afford not to spend \$1 to sell a bale?

FAIRVIEW NEWS...

After weeks of almost summer again, cooler weather has returned. A trace of rain fell Saturday, but about all it did was wash the dust off the little wheat, so it could breathe. The sun is out bright again this Monday morning, which means that the farmers can resume their cotton harvest. There is still a lot of cotton left in the area, gins are still running seven days a week and some of them twenty-four hours a day. A ginner's life is certainly a hard grind, in a fall like this, when so much cotton is made and all of it is gathered at once.

Mr. and Mrs. Woodrow Goodwin and Mr. and Mrs. Elmer Joiner went to Abilene, Sunday afternoon, to visit with Mrs. R. M. Babb, in the Hendrick Hospital. Mrs. Babb was painfully injured Saturday afternoon, just north of Abilene, when the car in which she and her husband were riding blew a tire and went into a spin on the rain slick road. Mrs. Babb was thrown out of the car, when the right hand door came open, and rolled into the

ditch. In the car's wild spin she was struck by the front bumper, than the car ran over her, but fortunately she was in the ditch, which held the car up above her enough to save her life. She received a broken collar bone, a fractured hand, and it was feared a broken ankle, or some broken bones in her ankle, besides a cut on the head requiring some stitches, and her whole body a mass of bruises. It was hoped that she had not received any serious internal injuries. She was conscious Sunday afternoon and her usual jolly self, although she must have been suffering quite a bit.

Mrs. Babb escaped with only an injury to one of his arms, which he must have received in trying to gain control of the car again, the car was not overturned nor damaged except one door will not close. It was indeed a very miraculous escape for them.

There was a lot of Thanksgiving visiting, with lots of turkey being cooked, some are still eating on them.

Mr. and Mrs. M. S. Johnson had four of their five sons, home for Thanksgiving, the son, Dennis, of California, being unable to come. Mr. and Mrs. Winslow Gray also spent Thanksgiving with them.

Mr. and Mrs. E. A. Henry went to Midland to spend Thursday and Friday with their son, Mr. and Mrs. Jimmy Henry, Judy and Cathy. Also present for Thursday and Thursday night, were Mr. and Mrs. Clois Henry and children, of San Angelo.

Mrs. Mel Jones also spent Thanksgiving day with the Wainscotts.

Mr. and Mrs. Woodrow Goodwin and Linda had Paul Frazier of Dyess A. F. B. as a guest, to eat some good home cooking.

We, the Elmer Joiners, had dinner with the daughter, Mr. and Mrs. Runt McCoy and Larry. Although the men were working it just made them that much hungrier, making the old turkey and trimmings taste better. The day was also Runt's birthday, so he had to eat double.

Tuesday night visitors of the Flavil Holmes were, Mrs. Kate Jennings and son, Sam Jennings, of Odessa, and Mrs. Emma Dixon, of Hamlin. Mrs. Jennings and Mrs. Dixon are daughters of the late Mr. and Mrs. Herbst, old time settlers in our community.

Mrs. Woodrow Goodwin and Linda, visited with the M. E. Randolphs, in Abilene last Friday afternoon.

Visitors in Sunday School, Sunday morning, were Jimmy Holmes and Melody, They and Mrs. Holmes spent the holidays with his parents, Mr. and Mrs. Flavil Holmes.

Mrs. George Wainscott spent Friday night with Mrs. Mel Jones, while her husband was visiting on the Plains.

Mr. and Mrs. Marvin Johnson had to return home after Thanksgiving, but the little boys took advantage of the holidays to visit with Grandpa and Grandma Gray. Other weekend visitors were Dorothy Gray, also of Amarillo, and a friend, did not learn his name.

There was a note of sadness to our business meeting of our church Sunday. We all realize that the rural churches are just about a thing of the past, the people just are not there. We did not decide anything definite, only that we will have services through December, then if a miracle doesn't happen we can't say what the outcome will have to be. Most small churches go down because of lack of funds to operate on, but the Lord has been good to us and we have the money to go on, but money does not a church make, you have to have some people.

Keeping Food Cool — For a makeshift camp refrigerator, try digging a hole about a foot and a half deep in a shady area. Place your perishable camp goods in the hole and cover with leafy branches. Food like milk, eggs and butter will keep for several days.
